The Pioneer in Leadership Agility

## Leadership Agility Accelerator

### **A new resource for you and your clients**

Many companies who use Agile, and their Agile consultants, feel an urgent need to place greater emphasis on agile leadership. But are current conceptions of agile leadership all they need to be?

The *Leadership Agility Accelerator* is a cutting-edge self-reflection and development tool. It's part of a body of work based on the extensive research behind the award-winning book, [Leadership Agility](#). The Accelerator takes gives managers a quick, hands-on, budget-friendly way to increase their agility.

### **How it works**

More than a self-assessment, the Accelerator will also guide your Agile coaching clients in selecting and adopting specific leadership practices that will take their agility to a new level. They will:

1. Identify what they're currently trying to accomplish as a leader.
2. Assess their current level of leadership agility.
3. Select a few best practices designed to take them to their next level of agility.
4. Create an action plan for each chosen practice, with your assistance.

### **Who it's for**

The Accelerator is designed for managers who (formally or informally) lead teams and lead projects designed to improve organizational functioning.

### Individual Coaching Applications—Examples

- ◆ Clients for whom you are a formal or informal Agile coach or advisor.
- ◆ Clients who want to boost their agility but don't currently have the time or budget for a 360 process.
- ◆ As a way to introduce clients to Leadership Agility in a practical, hands-on manner..

### Group Applications—Examples

- ◆ With management teams, for example, as part of a team development process or off-site.
- ◆ In leadership development programs.

### Pricing

\$89.95 for each Accelerator
